Famous for its daring, nature-inspired statement pieces, the Thai jeweller Lotus Arts de Vivre has just launched a fine-looking coffee table book named Unexpected Creations.

The stunning original photography will whisk you away with beautiful images of finely wrought bracelets, necklaces and rings, each carefully crafted with remarkable details. Inspired by Asian folklore and culture, Lotus' designs exude luxury elegance and draw attention to Thai heritage. Each of the jewellery pieces are one of a kind, bringing mythical creatures and ancient tales to life. The seamless melding of precious metals and shiny jewels are visually stunning.

Besides jewellery, Lotus' creations also include home décor, travel accessories, fine furniture and striking art. Unexpected Creations is published by Assouline and can be purchased at Assouline's pop-up store at Anantara Siam Bangkok Hotel.
